

GAS ODORANTS

NATURAL GAS / LPG / LNG / RNG

Your Gas Odorant Partner

ARKEMA
INNOVATIVE CHEMISTRY

Arkema can manage your odorant deliveries safely and reliably.

YOUR GAS ODORANT PARTNER

ODORANTS MAKE NATURAL GAS SAFER

Since the 19th century, when gas was manufactured from coal, the odor of gas has been widely associated in peoples' minds with a sulfurous odor. Arkema has continuously supplied gas distributors for 70+ years with high quality gas odorants that fully comply with North American odorization regulations.* In North America, Arkema has one of the most versatile gas odorant delivery fleets in the industry.

YOUR BENEFITS

Greater peace of mind: Our delivery technicians have unique expertise. Safety is Arkema's #1 priority and our goal is to safely provide odor-free deliveries. Our state of the art "closed loop" vapor recovery systems practically eliminate odor releases during delivery. This enhances safety, minimizes liability, and reduces costs.

Supply reliability: Arkema has the largest blended gas odorants storage facility in North America, which means added security of supply, regardless of seasonal upswings.

FLEXIBLE PACKAGING RANGE

We safely deliver gas odorants in a wide variety of containers:

- ❖ Returnable DOT cylinders equipped with dry-break couplings.
- ❖ Micro and mini bulk tank trucks from 250 to 2,800 gallons.
- ❖ Bulk trailer trucks or ISO-tanks from 3,000 to 6,000 gallons.

SERVICES

Arkema brings you more than gas odorant.

Our Odorflex® services include:

- ❖ Technical assistance about injection rates, odor fade, and odorant sampling and analysis.
- ❖ Training on the basics of odorization and gas odorant spill management.
- ❖ A range of services to help you control odorants' smell using O-Scent, an odor neutralizer with a unique formulation.
